SALE CONTRACT for delivery of 2021 Born heifers, between **Genetic Development (NZ) Exports, as agent**, and:

Vendor Name: _____

Postal Address: _____

Trucking Address: _____

E-Mail Address: _____

Phone: _____ Mobile _____

GST No _____ Bank Account: _____

LIC Participant Code: _____ Herd Code: _____ NAIT No. _____

The Vendor agrees to offer the specified number of heifers for purchase as listed, according to the conditions listed below:

1. Must be F12+ or J12+ with full ancestry showing on a suitable LIC Minda or CRV Insight profile, with recorded Friesian or Jersey sire (Crossbred sires are not eligible).
2. The farm must have no clinical cases of Johnes Disease, BVD or IBR in the last 12 months.
3. Heifers must not have been vaccinated against IBR, but must be vaccinated for clostridial diseases (e.g. 5 in 1, or 7 in 1).
4. Delivery will occur within 2 weeks of inspection & tagging.
5. Calves must have stayed at the same NAIT number since birth (or minimum of 6 months).
6. Calves will be weighed at selection/pick up and must have reached the stated delivery weight. If heifers are below the required weight, then a discount may be applied to purchase price.
7. All weaned calves and export ready heifers must have been dehorned during calf rearing.
8. Terms of payment are within 14 days of delivery or upon the purchaser receiving all relevant LIC transfers in Minda, whichever is the later, plus completed NAIT movement. Full title to the property of the livestock shall not pass to the Purchaser until payment is paid in full.
9. Deposits will be paid within 14 days of signing the Contract. If the vendor cannot supply the agreed number of heifers, any deposit paid will be applied to the final amount due. The Purchase price is inclusive of any deposit paid but exclusive of GST.
- 10.
